APPROACH: Position attack/high-pressing/medium block. Offense-focused mindset. proactive approach to each phase of the game.

SET-UP: Adaptive based on existing players and their respective identities and individual habits in given positions, with a capability and readiness to utilise varied systems. Last setup 1-2-4-3/1-4-3-3.

CULTURE/WORK ETHIC/ VALUES: Ready and able to create a positive working environment for the Club and Association. Mental preparation. Utilising soft skills in day-to-day work with the team, coaching staff and club employees. Commitment, consistency, energy, and responsibility as the foundation for developing a winning mentality.

TRAINING MICROCYCLE: Based on multiple game forms focused on development of setups/concepts/models. Readiness to effectively connect tactical and psychomotor elements of football. Cohesion in action and work planning. Introduction of targeted exercises for specific positions. Advantaged via actions linked to my own game model over match strategy.

PREPARATION FOR COMPETITION: A preprepared concept of analysis of the opponents at a individual and team level, alongside a concept of individual and team analysis based on a fundamental understanding of the game phases. Readiness to work together with a large staff group by clearly indicating areas of responsibility.

ADDED VALUE: Analysing and working with individual players, investment in individual development as well as readiness to create clear plans and expectations to facilitate player growth. Openness and willingness to hear and implement different suggestions or solutions. Development of the mental and social aspects of multiple National Team Players (2006-2022).
